

Mavery

mavery@gmail.com | GitHub: github.com/Mavery | Portfolio: FocusTracker.xyz | Remote

PROFESSIONAL SUMMARY

Frontend and backend developer with hands-on experience building web projects using JavaScript, React, Node.js, Git, GitHub, APIs, and AI-assisted development tools. Interested in frontend, backend, AI data annotation, LLM evaluation, and remote contract or full-time opportunities. Strong practical background in self-directed learning, community leadership, market research, and analytical decision-making.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React

Backend: Node.js, REST APIs

Tools: Git, GitHub, VS Code

AI Tools: ChatGPT, Claude, GitHub Copilot, LLM APIs

Cloud/ML: AWS Machine Learning, MLOps basics, cloud computing fundamentals

Other: Web3, cryptocurrency markets, stock market research, community leadership

PROJECTS

FocusTracker

Website: FocusTracker.xyz

- Built a productivity-focused web project designed to help users track focus and improve work sessions.
- Applied frontend development skills using JavaScript and modern web development practices.
- Used Git and GitHub for project version control and code management.
- Practiced product thinking by turning a practical productivity idea into a usable web experience.

GitHub Projects

GitHub: github.com/Mavery

- Built and maintained personal coding projects to strengthen frontend, backend, and API integration skills.
- Used GitHub to organize code, track changes, and share project work publicly.
- Explored AI-assisted coding workflows using tools such as ChatGPT, Claude, and GitHub Copilot.

EXPERIENCE

Web3Nigeria, Osun State Lead

- Led local Web3 community activities and helped grow awareness of blockchain and cryptocurrency topics.
- Communicated technical ideas to community members with different levels of experience.
- Supported engagement, education, and coordination for Web3-related initiatives.

Cryptocurrency and Stock Market Trader

- Researched memecoin, cryptocurrency, and stock market opportunities using market trends, risk analysis, and timing.
- Reviewed charts, news, sentiment, liquidity, and price movement to support trading decisions.
- Practiced disciplined risk management in volatile markets.

Forklift Operator

2023 - 2024

- Operated forklift equipment safely in a fast-paced work environment.
- Followed operational procedures, safety standards, and task priorities.
- Coordinated with team members to support efficient movement of goods and materials.

CERTIFICATIONS

- Coursera: Introduction to HTML, CSS & JavaScript
- Coursera: AWS Machine Learning & MLOps Foundation
- Coursera: Introduction to Software Engineering
- DataCamp: Understanding Cloud Computing
- Anthropic: AI Fluency

TARGET ROLES

Frontend Developer | Junior Backend Developer | Junior Full-Stack Developer | AI Data Annotator | LLM Evaluator | AI Coding Evaluator | Remote Technical Assistant | Web3 Community or Technical Support

AVAILABILITY

Open to remote part-time, full-time, and contract opportunities.
